## WHAT IS INITIATIVE?

the power or opportunity to act independently with a fresh approach before others do.

## WHAT DOES INITIATIVE LOOK LIKE?

Initiative is about doing something even if it isn't necessarily your job or responsibility to do so. It's about doing something that you haven't been asked to do because you know it must be done or you see a need that is unmet.

Having initiative not only allows you to do what needs to be done quickly and effectively, but also prompts others to become involved in the endeavors you undertake because they see your positive work habits.

You become a role model for others.

## Ways to take initiative:

- do things without having to be asked
- pitch in where I see I am needed
- be innovative and enthusiastic in everything that I do

## Setting SMART Goals

### Specific

(who—what—where—when—which—why)

### Measurable

(how will you know that you reached your goal?)

### Attainable

(plan your steps wisely to help you achieve!)

### Realistic

(choose something that you are willing and able to do)

### Timely

(give yourself a timeline)
